

RESPONSIBLE PURCHASING CHARTER

2024

ALL
CONCERNED

Ludovic Spiers
CEO of Agrial

AGRIAL'S COMMITMENT OF RESPONSIBILITY

Agrial is an agricultural and agri-food cooperative that supports its member farmers by selling their products and developing processing activities in the dairy, fresh fruit and vegetable, beverage and meat sectors. Its 12,000 members and 22,000 employees embody a supportive and efficient model, faithful to its history and culture.

In the context of globalised trade, the longevity of our model is based on the diversity of our agricultural industries, control of the origin of our products, professional excellence and the capacity for innovation of the men and women who make up Agrial, its divisions and its subsidiaries. Our intention is to help meet the challenges of growing food demand while respecting the demands of consumers and our stakeholders regarding the quality and social and environmental conditions under which our products are produced. We therefore take a particular interest in ensuring that our partners and suppliers apply

the same high standards. As such, **Agrial is committed to acting in all circumstances in accordance with applicable laws and regulations, as well as its values of Sustainability, Proximity, Solidarity and Daring.** We have supplemented these values with principles of good business conduct listed in the Group's Code of Conduct, which guide our day-to-day decisions and actions, available at **www.agrial.com**, under the section 'Our commitments - Growing the men and women of Agrial'.

With a view to spreading these unifying values, Agrial hopes that its partners and suppliers will also apply them in their dealings with Agrial and all its divisions and subsidiaries.

Together, we convey Agrial's values and bring them to life.

SUMMARY

What is this Charter for ? _____	4
Our ethical and responsible commitments _____	5
Our commitments for business conduct with our partners and suppliers _____	6
Our expectations regarding our partners and suppliers _____	9
Non-Compliance with the Responsible Purchasing Charter _____	13
Reporting and Agrial whistleblowing mechanism _____	14

WHAT IS THIS CHARTER FOR?

WHAT ARE THE GOALS OF THIS CHARTER?

The purpose of Agrial's Responsible Purchasing Charter is to reaffirm with its suppliers and partners, **the commitment of Agrial and its divisions and subsidiaries in respect of the Universal Declaration of Human Rights**, the International Labour Organization (ILO) Declaration on Fundamental Principles and Rights at Work, as well as all applicable national and international standards related to labour law, environmental protection and the fight against corruption, influence peddling, fraud, money laundering, the financing of terrorism and anti-competitive practices, and in general, the 10 principles adopted by the United Nations Global Compact.

This Charter sets out the framework for the maintenance of sustainable and ethical relationships between Agrial and its partners and suppliers.

WHO IS THIS CODE INTENDED FOR?

For the purposes of this Charter, "Agrial" refers to the activities carried out by the Agrial Group including its agricultural, beverage, dairy, fresh fruit and vegetable and meat divisions, as well as its subsidiaries.

This Charter is the reference document applicable to all partners and suppliers who sell products and/or services to Agrial, regardless of their geographical location and profession. It is used in support of decision-making in the Purchasing process and the selection of Agrial partners and suppliers.

This Charter includes a set of common expectations regarding our relationships with our partners and suppliers, based on the laws and regulations applicable in all the territories in which Agrial, its suppliers and partners operate. However, in the event of a difference between the law and this Charter, the strictest rule must always be applied.

It supports the decision-making process of the Purchasing department in the selection of partners and suppliers by Agrial and must be always applied during the relationship between Agrial and its partners and suppliers.

WHAT ARE WE EXPECTING FROM OUR PARTNERS AND SUPPLIERS?

That they become aware of our values and that they share and respect the principles enacted in the Charter.

Our **ETHICAL AND RESPONSIBLE** commitments

From the farm to the consumer, **Agrial is committed to take action for sustainable development.** Cooperating responsibly and sustainably to help people and regions grow, to preserve the earth and living organisms and to offer healthy, sustainable food, in order to create shared value: this is the summary of our sustainable development approach, which we place at the heart of our corporate project. **It is built around 5 strong commitments** that contribute to the Sustainable Development Goals and the United Nations Global Compact:

- 1**

TAKING ACTIONS ON CLIMATE, THE EARTH AND LIVING THINGS
- 2**

PROVIDING NUTRITIOUS AND SUSTAINABLE FOOD
- 3**

MAKING WOMEN AND MEN GROW
- 4**

CONTRIBUTING TO THE DYNAMISM OF LOCAL COMMUNITIES
- 5**

CREATING SHARED AND SUSTAINABLE VALUE

Faced with evolving social and environmental challenges, and convinced that agriculture is a solution to climate change, **we are deploying this cross-functional, unifying approach to progress**, to collectively build, with our farmer-members, our employees and our partners, a sustainable future for all.

IN LINE WITH ITS VALUES AND RESPONSIBLE COMMITMENTS, AGRIAL CONTRIBUTES TO THE UNITED NATIONS GLOBAL COMPACT PRINCIPLES.

HUMAN RIGHTS

- 01** Support and respect the protection of internationally proclaimed human rights.
- 02** Make sure that they are not complicit in human rights abuses.

INTERNATIONAL LABOUR STANDARDS

- 03** Uphold the freedom of association and the effective recognition of the right to collective bargaining.
- 04** Contribute to the elimination of all forms of forced or compulsory labour.
- 05** Contribute to the effective abolition of child labour.
- 06** Contribute to the elimination of discrimination in respect of employment and occupation.

ENVIRONMENTAL PROTECTION

- 07** Apply the precautionary approach to environmental challenges.
- 08** Undertake initiatives to promote greater environmental responsibility.
- 09** Encourage the development and diffusion of environmentally friendly technologies.

FIGHT AGAINST CORRUPTION

- 10** Take action against corruption in all its forms, including extortion and bribery.

Our commitments

FOR BUSINESS CONDUCT WITH OUR PARTNERS AND SUPPLIERS

CONDUCTING OUR BUSINESS RELATIONS IN AN IRREPROACHABLE WAY

We treat our partners and suppliers with honesty, impartiality and respect.

Our purchasing activities are conducted in accordance with high ethical and professional standards, as described in our Code of Conduct.

Throughout our value chain, we are vigilant in respecting the Human Rights of the United Nations and the Declaration of the International Labour Organization (ILO), as well as the 10 principles of the United Nations Global Compact.

EMPLOYEES MUST NEVER

- ✗ Offer, authorise or propose benefits in cash or in kind to anyone in order to benefit from an unfair advantage.
- ✗ Accept a gift or invitation from a partner or supplier during a commercial negotiation phase.
- ✗ Be influenced in their decisions by any kind of benefits.
- ✗ Ask a partner or supplier to make an undue facilitation payment to speed up the completion of an activity for Agrial.

PREVENTING CORRUPTION

We are committed to conducting our business in compliance with French anti-corruption laws and those applicable in the countries in which we operate.

We undertake to not create liabilities in order to obtain an undue advantage from a partner or supplier (advantageous commercial terms, contracts, etc.).

We strictly refuse to accept bribes (i) or other facilitation payments (ii) in any form, directly or indirectly, made by a partner or supplier with the aim of winning new business, retaining existing business or obtaining any other favour.

Similarly, all offers of entertainment or gifts made by a partner or supplier during calls for tenders must always be rejected by our employees.

Business gifts, invitations and entertainment occasionally offered by a partner or supplier to anyone in Agrial's organization in the course of maintaining established relationships are generally acceptable, provided they are infrequent, modest in value, and not prohibited by locally applicable laws.

(i) «Bribes» are not limited to cash payments. They can be anything of value, including: consultancy fees and commissions paid to parties who do not provide any services, payments in kind, including anything of value or benefit other than cash, e.g. transport, accommodation, entertainment, job offers and gifts, jobs offered to family members of public officials without going through the usual recruitment process, sponsorships/donations.

(ii) Facilitation payments are low-value payments (in cash or in kind) made to public officials in return for regular tasks that they would otherwise be required to perform (for example, to speed up the obtaining of permits, licenses, visas, couriers or services). Facilitation payments do not include compliant administration fees paid to an organization (not an individual) to expedite a service, for which a receipt can be obtained on request.

GUARANTEEING FAIR TREATMENT

We reject discriminatory behaviour in the selection process for our suppliers and partners. We select them impartially according to a predefined set of explicit and transparent criteria.

As such, we pay particular attention to quality, to services, to technology, to the proposed prices, to the ethical commitment and the environmental and social impacts of the proposed products and services and we exclude criteria that may be related to age, sex, disability, physical appearance, sexual preference, political and philosophical opinions, ethnic, social, cultural and national origins, trade union activities and religious beliefs.

We treat our partners and suppliers in the same way, whatever their size or geographical location.

EMPLOYEES MUST ALWAYS

- ✓ Guarantee equity between suppliers.
- ✓ Select suppliers based on impartial criteria as part of a consultation.
- ✓ Ensure contractual fairness regardless of the size or geographical location of the partner or supplier.

EMPLOYEES MUST ALWAYS

- ✓ Prevent and resolve situations of economic dependency of our partners or suppliers.
- ✓ Be attentive and provide support for the more vulnerable members.
- ✓ Diversify as far as possible the portfolio of partners or suppliers for its essential supplies or services.
- ✓ Promote innovations proposed by partners and suppliers.

GUARANTEEING TECHNICAL AND ECONOMIC INDEPENDENCE

We seek to avoid any risk of economic dependencies

that could create an imbalance between Agrial or one of its subsidiaries and its partners and suppliers.

The risk of economic dependence exists when a partner's or supplier's business with Agrial represents too high a proportion of its total sales.

The risk also exists when the activity carried out by Agrial with a partner or supplier represents too high a proportion or is unavoidable for its supplies.

PROTEC THE CONFIDENTIALITY OF INFORMATION AND INTELLECTUAL PROPERTY

We are committed to respecting business secrecy and the confidentiality of information determined as such, which is provided to us by our partners and suppliers. Furthermore, we pay particular attention to respecting all intellectual property rights.

EMPLOYEES MUST NEVER

- ✗ Disseminate confidential information from one of our partners or suppliers to a competitor, a customer or any other person not entitled to receive it.

EMPLOYEES MUST ALWAYS

- ✓ Include discriminating environmental criteria in specifications when justified by the activity.
- ✓ For equivalent services, give preference to partners and suppliers with the highest environmental standards.

ACTING IN FAVOR OF CLIMATE, THE EARTH AND LIVING THINGS

Agrial undertakes to reduce its environmental impact and preserve resources

at every level of the food-processing chain, from agricultural production to the transformation of food products.

Along with its farmer partners, Agrial is committed to develop agroecology which encompasses key ambitions such as climate, soil and biodiversity preservation, or animal welfare.

And in addition, reductions in our water and energy consumption, the fight against climate change and waste, and the reduction of waste production are all key objectives for our business.

Our expectations

REGARDING OUR PARTNERS AND SUPPLIERS

RESPECTING AGRIAL'S VALUES AND PRINCIPLES

Partners and suppliers undertake to respect the values and principles set out in this Charter within the context of their activities.

ABOLISHING FORCED LABOUR AND CHILD LABOUR

Partners and suppliers must prohibit the use of any form of forced, compulsory or unpaid prison labour, as well as unpaid overtime.

They respect the minimum age defined by ILO Conventions 138 and 182, i.e. 15, and 18 for hazardous or difficult activities. They undertake to ensure the protection of young workers in the performance of tasks likely to interfere with their education or hinder their physical development.

They will refrain from resorting to illegal practices such as the keeping possession of their employees' original identity documents.

Bonded labor is prohibited. Partners and suppliers will not resort to any form of bonded labor, nor will they authorize or encourage workers to incur debt through recruitment fees or other means.

Work «under non-cancellable contract» is prohibited. Suppliers will respect the right of workers to terminate their contracts after legal notice and to leave the workplace and factory after their shift.

PROMOTING COMPLIANCE WITH HUMAN RIGHTS AND INTERNATIONAL STANDARDS

Partners and suppliers undertake to comply with all local and international laws in the conduct of their business. In particular, Agrial expects them to promote and respect international human rights law, the fundamental principles set out in the Universal Declaration of Human Rights and the International Labour Organisation Declaration, and all applicable laws and regulations relating to the preservation of the environment and the fight against corruption, influence peddling, fraud, money laundering, the financing of terrorism and anti-competitive practices.

Their activities and sourcing shall not harm local communities and marginalized populations, e.g. by occupying land and natural resources they are dependent on.

Our suppliers and partners undertake to promote respect for these fundamental principles among their own suppliers and partners.

GUARANTEEING FAIR AND EQUITABLE TREATMENT FOR ALL EMPLOYEES

We expect our partners and suppliers to encourage diversity in the conduct of their activities and to not tolerate any form of violence, sexual or moral harassment, denigration or discrimination, on the grounds of age, sex, disability, physical appearance, sexual preference, political or philosophical opinion, ethnic, social, cultural or national origin, trade union membership or religious belief.

Agrial invites them to comply with all laws and regulations relating to wages and working hours, including those concerning the minimum wage, overtime pay, and other aspects of remuneration and benefits provided for by law, in accordance with national legislation and conventions of the International Labour Organization (whichever offers the best treatment of employees).

Where local legislation is absent, industry benchmark standards should be used as a reference to determine the wages and benefits

which should always be enough to meet decent basic needs.

They guarantee to treat all workers with respect and dignity and clearly inform them about their rights, responsibilities and working conditions.

Partners and suppliers neither practice nor tolerate moral or physical harassment or abuse of any kind.

Finally, partners and suppliers guarantee workers the right to form or join a trade union of their choice and to bargain collectively, without the prior authorization of their managers. Partners and suppliers shall not hinder, prevent or interfere with these legitimate activities. Where applicable law restricts or prohibits freedom of association and collective bargaining, they will not oppose any other form of free and independent representation and negotiation, in accordance with ILO conventions.

GUARANTEEING PROTECTION OF HEALTH AND SAFETY AT WORK

Partners and suppliers undertake to provide all their employees, whether direct or indirect, with a safe and healthy working environment that respects their health and physical integrity.

They undertake to ensure compliance with the highest standards of safety at work and, at the very least, to take appropriate measures to:

- ✓ prevent accidents and damage to the health of their employees in all the circumstances in which they carry out their work,
- ✓ provide them with the appropriate level of equipment and protection required for their work and to use products that are authorised on the market,

- ✓ define appropriate rest periods and working hours, in accordance with applicable laws,
- ✓ guarantee them access to clean sanitary facilities, drinking water and all necessary sanitary and health facilities,
- ✓ handle with the utmost diligence any case of violation of health and safety standards of which they become aware in the course of their activities,
- ✓ ensure that workers and members of management receive regular training in health and safety prevention.

RESPECTING LAWS ON COMPETITION

Our policy and our joint responsibility include compliance with all international, European and national laws on competition. As such, we forbid price-fixing and market/clientele allocation agreements, collusion regarding invitations to tender and, in general, all other illicit agreements

to prevent, hinder or distort competition within a market. In this context, they undertake never to exchange sensitive information concerning Agrial with third parties.

RESPECTING LAWS TO FIGHT CORRUPTION

Agrial is subject to the requirements of French law no. 2016-1691 of December 9, 2016 on transparency, combating corruption and modernizing economic life. In accordance with this, Agrial requires its partners and suppliers to commit to respecting and ensuring respect for applicable international anti-corruption conventions.

In the course of their business, they guarantee not to provide or promise any undue advantage, that no one may offer, authorize or propose the payment of money, bribes, facilitation payments or any type of benefits to any person in the public or private sector to obtain or benefit from an unfair commercial advantage.

The partners and suppliers and Agrial reciprocally undertake to:

- ✓ Never solicit, propose to or accept from an employee or officer of the other party, at any time, directly or indirectly, offers, promises, gifts or benefits of any kind whatsoever for himself or herself or for another person, so that this person performs or refrains from performing an act of his or her activity or function or facilitated by his or her activity in violation of his or her legal, contractual or professional obligations;

- ✓ Never misuse their real or supposed influence, directly or indirectly, in order to obtain from a public authority or administration or from a public official, any decision favourable to the other party;
- ✓ Avoid situations of real or potential conflict of interest likely to impair the independence or objectivity of their professional actions or decisions.

Business gifts, invitations and entertainment occasionally provided to non-governmental employees in the context of business discussions or developing commercial relations are generally acceptable, provided that they are not frequent, that their value is not high, and that they are not prohibited under local legislation.

RESPECTING TAX OBLIGATIONS AND FINANCIAL LAWS

Agrial is resolutely committed to the fight against fraudulent practices such as illicit trading, money-laundering and the financing of terrorism. Agrial expects its partners and suppliers to meet their financial and fiscal obligations, and to never engage in fraud, forgery, money laundering or the financing of terrorism, in general and particularly in the context of activities carried out directly or indirectly with or for Agrial.

PROTECTING PERSONAL DATA

We expect our partners and suppliers to comply with all local laws applicable to the protection of personal data and, in particular, the European Regulation on the Protection of Personal Data (RGPD).

COMMITTING TO THE SUSTAINABLE AND RESPONSIBLE USE OF RESOURCES

We expect our partners and suppliers to commit to initiating and/or developing approaches to preserve the environment and natural resources.

We expect our partners and suppliers to commit to initiating and/or developing approaches to preserve the environment and natural resources.

In farming, we expect our partners to respect agronomic standards and breeding good practices that sustain animal and environment welfare.

Generally, Agrial invites its partners to raise awareness and train all their staff in the actions undertaken to protect the environment.

REPORTING

Agrial whistleblowing mechanism

Each and every one of us, whatever our position or role within Agrial, has the right to speak out about situations of concern. We all have a responsibility to report the facts and share our concerns, and to do so fairly, honestly and professionally.

The Agrial professional whistleblowing mechanism.

As provided for in French law no. 2016-1691 of December 9, 2016 on transparency, the fight against corruption and the modernization of economic life, Agrial makes available to all its employees, as well as to its professional stakeholders, members or cocontractors, a system for reporting situations that could undermine the integrity and/or rights of individuals, affect the company's business or seriously engage its responsibility with regard to the general interest and regulations.

Agrial's whistleblowing mechanism must allow for the collection of any report from a natural person, who discloses, without financial consideration and in good faith, a situation of which he or she has become aware in the course of his or her professional activities, or failing that, personally.

Reports must relate to facts that have occurred or are very likely to occur, which may be a crime or infraction, a threat or serious harm to the general interest, a violation or an attempt to conceal a violation of an international commitment duly ratified or approved by France, of a unilateral act of an international organization taken on the basis of such a commitment, of the law of the European Union, of the law or regulation applicable wherever the Group is present, or any breach of the principles of Agrial's Code of Conduct, in particular concerning facts of

- infringement of the integrity, safety and/or rights of individuals, and of human rights,
- corruption, influence peddling or conflicts of interest,
- non-compliance with competition law and public procurement regulations,
- money laundering and the financing of terrorism, as defined by European regulations, the French Monetary and Financial Code and the General Regulations of the Autorité des Marchés Financiers,
- undermining the safety and conformity of products and foodstuffs intended for human and animal consumption,

- infringement of human and animal health and safety, consumer protection or environmental protection,
- breaches of privacy and personal data protection, and the security of networks and information systems.

The Agrial professional whistleblowing mechanism is the subject of a procedure available on the website www.ethic.agrial.com

Protecting the whistleblower

Agrial undertakes to protect the authors of a whistleblowing report against any reprisals, provided they are acting in good faith. However, if the whistleblowing system is used with the intention of harming others, the whistleblower may be penalized by Agrial or may be subject to legal proceedings.

What does retaliation involve?

By retaliation, we mean any action, direct or covert, that illegitimately sanctions an employee or stakeholder for reporting in good faith an actual or suspected situation of concern.

Retaliation is a serious breach that Agrial will not tolerate, and any employee who retaliates may be sanctioned.

Confidentiality and anonymity

Any situation reported under this whistleblowing procedure will be treated impartially and in complete confidentiality. A situation may be reported anonymously. It will be dealt with if sufficient information is provided to enable it to be reported.

How to report?

- To the contact person identified within the scope of activities with Agrial or one of its subsidiaries
- To Agrial Compliance Department

SITUATIONS OF NON-COMPLIANCE with the Responsible Purchasing Charter

Partners and suppliers authorise Agrial to carry out checks to ensure their compliance with the values and principles set out in the Charter. These controls may take the form of documentary requests or audits carried out on the sites of partners and suppliers by Agrial employees or third-party organisations mandated by Agrial.

Following these controls, the partners and suppliers undertake to propose action plans to respond to any discrepancies or non-compliant situations found and thus promote continuous improvement in these areas.

- In the event of minor non-compliance, Agrial may verify compliance with this action plan by conducting a verification audit, either by itself or by a third party of its choice.
- In the event of major or recurring non-compliance, Agrial reserves the right to suspend all commercial relations until the situation of non-compliance has been resolved, or even to withdraw and terminate all or part of its commercial relations with the defective supplier or partner.

SIGNING OF THE RESPONSIBLE PURCHASING CHARTER

I the undersigned (name and surname)

Acting in my capacity as (job title)

A legal representative of (company name)

Located at (head office address)

Town Post Code

Country

- Acknowledge that I have received and read Agrial's «Responsible Purchasing Charter» and undertake to comply with all of the above provisions.
- Make a commitment to inform staff about this Charter and its requirements.
- Declare to be knowledgeable about and in compliance with the regulations in the countries in which we operate, at least regarding the topics covered by this Policy.
- Commit myself to promoting these values to our own suppliers and partners and to alert Agrial as soon as possible in the event of changes or modifications that may impact this commitment.
